

phreeqcrm::rm\_getendcell

phreeqcrm::rm\_getstartcell

phreeqcrm::rm\_getmpitasks

```
graph LR; A[phreeqcrm::rm_getendcell] --> C[phreeqcrm::rm_getmpitasks]; B[phreeqcrm::rm_getstartcell] --> C;
```

The diagram illustrates a flow or dependency where two separate components, 'phreeqcrm::rm\_getendcell' and 'phreeqcrm::rm\_getstartcell', both point to a single target component, 'phreeqcrm::rm\_getmpitasks'. The arrows are blue and point from the right side of the left boxes to the left side of the right box.
